I have always been satisfied with the care at Szmanda, going here for years. The front desk staff are always kind. Jamie, the dental hygienist I have is always exceptional and kind. I am grateful to get care during this interesting COVID-19 time. I had an initial visit with a new dental provider, who seemed kind and knowledgeable in her practice. I would recommend to her one thing which I have found as both a patient and provider a simple gesture, but important and goes miles in building rapport. Introduce yourself, by name. Call me by my name. Even in busy times, this is possible.

When you go for a 9am teeth cleaning and are still sitting in the waiting room 30minutes after your appointment, there's something wrong. There was another lady also waiting the same amount of time for her cleaning, and we both were chatting that if you want us to wait 30minutes then schedule us 30mintues later. What happens to the folks that have a 3-4PM appt? Do they wait an hour? Especially during all of this Covid business - some of us can't handle wearing a mask that long! The service has really gone down at the Wittenberg location, and the new lady dentist is very arrogant.

Amy is very kind and gentle with her patients; efficient and thorough at the same time (20+ years' experience); loved my time in the chair with her. She and Dr. Nichols addressed questions regarding treatment and cost of services and I left with no dangling concerns whatsoever. Dr. Nichols has a great rapport, candid and professional, and I found myself wishing I could keep him in the room longer just for the conversation!

For the second time in a row of having my 6 month cleaning there was no toothpaste or floss given. Only a toothbrush & retainer threader. The toothbrush & threader don't do any good if there's no floss or toothpaste to go with it. If you're a dentist office there should never be a short or no supply of toothbrushes, toothpaste, floss & retainer threaders.

What can I say but excellent care and service from the reception area personnel to Collette ....the hygienist to Dr. Yvonne! Colette is absolutely the best from her knowledge to her excellent care, to caring about each patient. In my opinion she goes above and beyond! And she takes the time to listen and answer questions... she is thorough and never cuts corners. I would recommend and do to anyone about having Szmanda for their dental care!

I did not get called into my appt until 20 minutes after my scheduled time. I would not have normally thought that was a big deal except for what you did to me the previous week. I was late by 12-15 minutes for my appt and was told my appt was cancelled because I was late. I wasn't happy but it was my fault, so I understood. I took it as a good way to stay on schedule. Then a few days later I got a sweet letter from your office in the mail saying I would be charged if I did it again. So it's ok for you to be late and I have to still pay, but when I am late, it isn't ok? Doesn't seem right to me. I think it needs to go both ways. When I said something to the receptionist, she pretty much blew me off saying it is your new policy. I suggest you rethink your policy or you should make darn sure you act to the same standards as you expect us too. Life happens on both ends. I drive from Antigo because I really like your clinic but I can certainly change that at anytime.

The hygienist was very rough with my mouth. My gums were bleeding the whole time and she had to rinse my mouth at least 5 or more times because of all the blood. I have never had a hygienist that had to rinse my mouth that many times. I was in constant pain and not once did the hygienist stop and ask how I was doing. I was ready to get up and leave. My mouth was very sore at least two days after my teeth cleaning. This was the first time that my mouth was sore after getting a teeth cleaning. The dentist came in and started talking about how I have a bigger than usual space between my teeth and how he wanted to push the tooth over to lessen the space, even though it has never caused me any issues. I have never had a bad dentist experience before, but this last visit changed that.

I love all the people. They are so helpful and friendly. Also they really care and truly listen and hear me and help come up with ideas to help me in whatever issues I may be having. Very patient and understanding. I get anxiety from dental visits and they all make me feel more relaxed. I'm very happy every visit. Even when something comes up unexpected or out of their control and times or dates have to be changed they do everything in their power to make it easier on me for the change. Things happen, but they really show they care that I'm happy and satisfied when changes have to be made, and in my entire experience with them.

My 3 year old toddler and I were new patients. Thank you for fitting me and my toddler in at the same time. My toddler was not scared at all. Abby was patient and informative with my toddler while I was getting my teeth cleaned. I can hear them in the other room, and it was reassuring my son was safe and learning at the same time. Jason kept an eye on my toddler for a very short period while I finished up with my cleaning appointment.

So happy I changed to this dental center and even more happy to have Dr. Szmanda as my dentist. Thank you SO much for everything that you do, and not just you but everyone, including the awesome office staff. They are so understanding and work

well around your schedule, and in dire emergencies will fit you in as best they can. I should have changed to this dental center years ago, but now that I have, I will never look back! Thank you Szmanda Dental Center!

The last two times I've been there, I waited at least 20 minutes past my appointment time. This time they even called me in early... still waited. All that said, I wouldn't go anywhere else. Everyone is so pleasant and accommodating. I believe that is a top-down method of running the business, since Dr. Paul sets the standard himself.

What a wonderful, professional and very, very nice person. Even though I ended up getting my tooth pulled, she was very concerned about how I was doing. I can't tell you enough how sweet she was. I would recommend her to everyone, especially a new patient. She really gives Szmanda Dental a fantastic name.

I was annoyed that I wasn't asked about any of the services or procedures that I was given. I was told what was going to happen, never was asked. The water cleaning seemed to save a lot of time but was very messy and I was glad I hadn't worn anything nice. The water kept dripping down my chin and down to my clothes. Perhaps a better "bib" could be provided or some sort of towel. The hygienist was very nice. I felt bad because I was having a bad day and didn't want to talk much. She didn't seem to get the hint that I was okay not making small talk and kept trying to make the effort.

Everyone in the office was so nice and treated me with respect! Dr. Yvonne was WONDERFUL. Made me feel good and was very, very nice!! Did a beautiful job fixing

my tooth and was very personable and kind. I have panic attack's and she made me feel so relaxed that for the first time I didn't hyperventilate while being worked on!!! Thank you so much!!!!

My hygienist was very good. I was turned off by the dentist calling attention to my bite and telling me that he was going to refer me to an Orthodontist, a specific one in town. I have had this bite for my lifetime and it has not been a major concern to any other provider to date. Also suggesting a bridge or implant for a missing tooth that has been gone for over 20 years. The missing tooth and the bite do not bother me. Questioning if there are kick backs for referrals.....didn't like it.

Excellent staff, very good communication and will really work with your schedule. Seem to have the skills and be willing to take the time to make sure things are right. Too early to tell if the results will be optimal (time/variables) but I do believe they've done everything in their power to ensure the best outcome possible. If you've had a negative experience with other dental offices (as I have), you might want to give these folks a chance.

Very professional, kind and honest. I was referred to a specialist that would have the expertise to handle my situation with the utmost care and equipment. Very commendable for Szmanda Dentistry to recommend a specialist rather than take on the task themselves. I would definitely recommend Szmanda Dentistry to all I know in the area.

This is the first time this has happened to me . I received my cleaning, which was great, but I was asked to wait or I could leave because both Dentists were with patients. I opted to leave for I had other appointments. I was a little disappointed. I feel it would of only took a minute to examine my teeth, seeing I was called and asked to come in an hour earlier for my appointment. My insurance is paying for a cleaning and an exam. Sorry, :(

My appointment went very well and the tech was awesome and did her job very well. The only experience I would like to see better is the hit on my pocketbook. I don't mind paying for the cleaning and the x-rays but I think that when you book that appointment, it should include a check by my Dentist of over 30 years and not an extra charge to me for a 1 minute peek in my mouth.

I just love my hygienist. She is the best. It makes an unpleasant experience of having your teeth scraped really enjoyable.

I am always treated like I am the most important patient they have and fit my appointments in on my schedule. The level of personal service and advice has gotten my teeth and gums to the healthiest level they have ever been! I want to thank Colette for that..She always gives me the best cleaning and I listen to her advice and recommendations. The Waterpik Water Flosser she told me about and bought there right at Szmanda Dental had really made cleaning my teeth and gums easier! It even reduced the pockets in my gums near my back molars to a healthier level! She makes me feel at ease and I always look forward to my next appointment with her! Thank You :) John Sparbel

My appointment was with Dr Paul Szmanda. I'm in the process of having crowns and as always.....he does a FANTASTIC job He's caring and very understanding and DON'T try to rob you blind!!!! He's a perfectionist!!!! You'd swear he's working on his own families teeth when he's working on yours. He wants you to 'LOOK GOOD' because it makes him look good;-) I would highly recommend Dr Paul to anyone. FYI: He has a great group of dentists there who also do great work. His staff is such a good bunch of people. They'll come say 'Hi' even if they're not working on you. Been going to Szmanda Dental for over 20 years I believe

Yesterday I received a cleaning like none before as it was sooo thorough. She took the time to clean around the gums as some pockets are starting to form. I have been to quite a few dental facilities in my life time. Szmanda's rates right at the top. I don't know how they do it but something is special with their business model. Unless you have been at some of the other "grind and fill" as I call them, you might not understand my experiences. Szmanda's is Top Notch. Don't hesitate to give them a try especially if you are signing a release every time dental work is being performed.

My latest visit to the Szmanda Dental Center was, as usual, a good one. The appointment started on time and, thanks to the education I have received regarding dental health maintenance, no problems were found with my teeth. I might add, there is never any "rush" on anyone's part to move on quickly to the next patient, there is always time for questions and answers. I continue recommending this dental center for maintaining good dental health.

Very pleased with how effective the communication was from the first call to the follow up appointment being made. My visit may have swayed my belief system that Dentists need to be avoided at all costs. As a young boy, I lost my two front teeth in an accident and spent the next decade in and out of the Dentist's chair trying to correct the original problem and each subsequent attempted solution. My visit on 3/13/17 was a major Paradigm shift as I was met by a friendly knowledgeable Team. My paradigm shift took an even more positive swing with the sense of humor my Doctor and assistant demonstrated...lastly the Doctor was a lefty and a very skilled young lady who took advice well from her assistant who was also very much on her game. Only feedback I have is a line I will steal from Top Gun when Maverick and Goose sang to the pretty girl in the bar....the girl asked Maverick if he was a good pilot....he said "I can hold my own" and her response was "good, now I don't have to worry about you making a living as a singer"....thank goodness your a great dentist!

They refused to honor a coupon I had cause they said the promotion had ended yet it didn't have an expiration date on it. It was the only reason I had chosen to go there. They also said they were going to take my blood pressure before they started and never did. The cleaning itself was fine but none of the staff seemed overly friendly and the receptionist at the front desk was almost rude.

After being terrified of the dentist for much of my life, demands Dental has completely changed my view of dentists. From the minute I walked in to the second I left, I was greeted with so much kindness. Every single staff member is kind, polite, and they never make you feel anything other than welcomed. It's taken some time to get over my fears but I can now walk in relaxed knowing each staff member-even if I've never seen them before-will be kind. I am fine with new hygentsis and doctors because I know without a doubt every single staff member is kind and patient.

After a 40 min. Wait to even get in, The dentist is not very friendly, he was very short with me, the hygienist(whom I never seen there before)was very rough, never rinsed my mouth out, she cut my gums, which they are still sore today. This is not normal usually iam pain free after a cleaning.. After this experience I am considering going to a different location to have a different hygienist and dentist and will take my family with me. I sure wouldn't want my kids to have an experience like that! The only positive pleasant person I have interacted with at my recent visit is Penny at the desk! She is always smiling and pleasant she is a keeper!

Besides doing a great job cleaning my teeth she also gave me a lot of information about gum disease and how to take the best care of my dental health which I found very interesting and informative. Lastly she told me about the fluoride treatments for adults which i chose to get. Thank you for excellent patient care !!

The office got me in the same day and made my issue much less of an issue in the short term. They make sure to run things through the insurance prior to proceeding to any pricey procedures.

My most recent visit to Dr. Szmanda's office was a pleasant one, as usual. All staff members I dealt with were very personable, and they made me feel welcome and at ease. The highly-sophisticated dental technology used in Dr. Szmanda's office resulted in my being in and out of the dentist chair in approximately 15 minutes, with no pain experienced. I continue to receive top-notch care with each and every visit and strongly recommend Szmanda Dental Center.

From the moment I walk in the door I am greeted by a friendly, smiling receptionist who is quick to note I have arrived for my appointment. Next, the dental hygienist (Jamie) greets me for the stop in my brief visit. She is very pleasant, personable, and helpful in understanding how I can insure future success in my dental care. The final person to greet me is Dr. Paul Szmanda who is a joy to talk with. Again, very pleasant and willing to share his 32 yrs experience in the dental field. Overall, a very pleasant experience with professional who care about their patients dental health and personal experience in their office.

I was suffering with tooth pain for only 2 days but it was all I could handle. I called the Rib Mountain Clinic at noon on a Thursday and was told that they would call me back after they shuffled some things around. They called me back and were able to get me in right after my work shift in the afternoon. I saw Dr. Paul as I always do, and he was

able to put my mind at ease and take care of the source of pain. Dr. Paul and his Staff are always more than generous are very good at their jobs. I can't thank Dr. Paul Szmanda and his Staff once again for helping me out.

In general everything was great. And I will admit I don't particularly love dentist experiences. That said, I am a big pansy when it comes to mouth pain - combined with my 'love' for dental work - those are all caveats for what I'll say next. I don't think I've ever had a more painful cleaning. Either it's been too long (it has) or someone is less careful than they could be. Gum poked and hammered.... She was very nice and polite - but it hurt....

Very good experience. Everyone was friendly, Patty knows me by name and always smiles. Dawn does a great job with my cleaning. Talk enough to be friendly & let me

know she is interested in me but not so much I can't answer her with my mouth full.  
Keep up the good work :)

Review for Martina Fischer

I was charged almost \$100.00 for a "comprehensive new patient exam". I don't think the dentist spent more than five minutes with me. He checked the X-rays, briefly looked at my teeth, and checked for oral cancer. These are the things my former dentist routinely did during each and every visit. The hygienist's exam was also very routine; checking for gum recession and cleaning my teeth. If I am going to be charged for a "comprehensive exam" I want something outside the realm of the routine. Basically I paid about \$100.00 to gain the "privilege" of being a Szmanda patient. Except I won't be going back. I don't like being fleeced.

We always love visiting the office. Our littlest guy was a little nervous this time around and didn't want any "tools" in his mouth because they hurt. However, the hygienist did a wonderful job of calming his fears and explained everything and then asked him permission to use the tools. She was super gentle and made sure our little guy was comfortable the whole time! We got home and he set up his own "dentist station" in the bathroom! :) Thank you once again!!

my visit yesterday was wonderful. my hygienist answered all my questions and was able to help me problem solve. She was so patient and kind. Earlier in the week my daughter had left a stuffed animal at the office and when we called to have them hold it for us, the receptionist assured my daughter she would take care of it and feed it. My daughter was delighted that they would care for it for her.

I thank you for getting me in right away when my dentist was gone to Florida. I switched to a different dentist because of location but always will consider Szmanda Dental my "home" dentist since that's where I've gone most of my life. They fixed my tooth quickly and explained things well. My only complaint would be that the assistant was not very personable. While waiting for my mouth to freeze she just sat quietly, looked out the window and didn't try to make small talk, even when I tried to say something. It was really strange because every time I've gone there before the hygienists or assistants were always very friendly. I hope it wasn't because I'm not a "regular" anymore. Overall though it was a great experience and I would recommend people to go there. Maybe the assistant wasn't awake yet on a Monday morning? A BIG thank you to Szmanda Dental!!! :)

I had a slight hiccup when going to my appointment on Thursday 3/3. I was called very quickly and put in a room where the dental hygienist and I figured out she didn't have my chart but another Wendy's. I was then greeted by another dental hygienist and escorted to a different room where my cleaning started. This really didn't take long at all and I have no problem with it but once my cleaning was done I waited for a

dentist to check me for 15 minutes total. Nobody was able to come and do my check so the dental hygienist said it was ok for me to leave if I needed to get back to work. I know everyone's time is valuable but so is mine as a patient. I am really NOT please that I waited and was not able to see a dentist. I hope this doesn't happen in the future.

Office is clean, people are friendly and have good sense of humor. I feel comfortable that the work they do is what needs to be done and they are not adding unneeded procedures to rack up the bill.

Review for Jaime Resch

My hygienist Jaime was pleasant as usual. My teeth feel awesome! I have sensitive teeth and she thoroughly cleaned my teeth without the pain I normally get when I floss my teeth. She also recommended toothpaste that helps alleviate the sensitivity I have, so I am looking forward to seeing how that helps out. I would recommend Szmanda Dental highly.

Review for Kristin Vetter

Just a cleaning, but no cavities. :) Excellent, as always. I had a new hygienist today, and I liked her. Everybody at the office is really nice. I've been going to Szmanda Dental since I moved to Wisconsin in 1995. No waiting time for my appointment. I've never had a bad experience, even with the yucky crowns/root canal. I mean, they weren't fun, but I did not experience any pain.

While the hygienist was as pleasant as ever and did a good job of cleaning my teeth, I was quite surprised to find out that the dentist had walked out of the office 15 minutes before so that I would not be getting a dental exam. My sister who had an appointment earlier in the week, said that there wasn't a dentist available at her appointment (at the same clinic) either. I don't know what protocol is for these situations but doesn't a dentist need to be present in a dental clinic?

Review for Paul Szmanda

I was having extreme pain due to a tooth that needed a root canal and had formed an abscess. After calling tens of dentists from Wausau to Merrill I finally got in contact with Szmanda Dental in Rib Mountain. They were able to get me in the same day and start on my root canal. Every other place I called said the most they could do was an initial exam and X-ray. By the time I left Szmanda dental I had immediate relief from the pain/pressure and felt confident I was in good hands. I have terrible anxiety related to previous not so pleasant experiences with various dentists, but Dr. Szmanda and his friendly staff helped me to feel at ease. Thank you so much for

everything! I would definitely recommend them to anyone looking for a great dental team.

Review for Wanda Seefeldt

Sorry for the time lag here. My appointment proved a very good experience, once again. I had no waiting beyond my scheduled appointment, my hygienist was very efficient, courteous, and made my appointment a pleasant experience. I thankfully got a good report and I attribute that to my dentist and my hygienist for giving me the needed information through the years in order to promote good dental health - the rest, I know, is up to me. I have and will recommend this dental care facility to anyone who asks.

Review for Wendy Fuhrman

My favorite hygienist, Wendy was as kind and gentle, yet thorough, as she always is. Dr. Keith is one of the best dentists I know and am so happy he is in the Marathon Szmanda office. Although I only had a cleaning, I always enjoy a quick "hello" from Sonia. Dr. Keith, Wendy and Sonia are as wonderful as always. However, this trip to the dentist was not as bright, not as cheery as normal. This visit was missing someone very special...this visit was missing "Miss Krissy Sunshine" at the front desk. The office just isn't the same without her. It lacks that vibrance, that energy that only Krissy can provide. :-( Krissy was the heart of the office and, although I'm happy for Krissy for pursuing other avenues and adventures, I'm incredibly sad for Szmanda for losing the best receptionist/office managers they had!!! Wishing Krissy all the best the world has to offer. Thanks Dr. Keith, Wendy and Sonia for trying to keep the ship afloat without Krissy.

I had a new hygienist at my recent appt. She was not as friendly as the hygienist I had in the past. She had asked about my job, and said "are you JUST a nurse". As a patient and a nurse, I take that comment to heart. I understand that everyone is new, but you also have to know and understand what you are saying to patients. Overall she did okay.

Excellent work and compassion shown by the dental assistant. She was very knowledgeable regarding my concerns. She gave me helpful tools to improve my oral situation and decreased my anxiety regarding my issues. Only concern regarding the visit is I wish the doctor had more expertise regarding salivary gland issues. He did not know how to exam me regarding this, but the dental assistant did. I did appreciate him offering to set me up with an oral surgeon, who had more knowledge related to my concern. He has always been able to fill my dental needs otherwise, which I appreciate. Please thank the dental assistant for her compassion and expertise. She was excellent! You picked a winner.

Review for James Sobolewski

Although this was not the first time i was to have a tooth pulled I still had some small reservations about it, for this was the first time I had had that procedure done at Szmanda. I was very impressed with the ease and almost painless procedure. Everything took no longer that 30 minutes with very little pain. The assistant was excellent as was the doctor himself. Thank you!!

I was and have been very shocked at how incredible, fast, conservative, nice, caring, and up-to-date/current everything is. I needed that! Thank you for being so customer orientated, but still making things a personable experience. It seems like I was due for a better Dentist, and have recieved exactly what I was looking for! Jason Plansky and I, Kim, appreciate you!

My visit was excellent as always. Have been a patient in Marathon since Dr Strong built this office and I have to say, if Dr Strong had to retire, the best replacement is Dr Keith Simons. Great dentist who gives options and is not just out to use up your insurance. I highly recommend Dr Keith, and the only hygienist ever is Wendy! She

gives the most gentle thorough cleanings. My teeth feel great, and never hurt after. Krissy always knows to schedule me with Wendy, she doesn't even have to ask anymore. Good group of people.

Dr. Jim @ the Rib Mtn location is one of the best Dentists that I've been to, and I've unfortunately been thru many over the years. They are always friendly and will do whatever it takes to get you in, if you are in pain. By the way, Dr. Jim is excellent at minimizing pain during the visit, that's one of the biggest reasons I come here. Now they have a referral program too. I think they are great and would definitely recommend them for anyone to try out. - t.k.

Everybody in my family was treated well by Szmanda yesterday. Both my husband and I felt well cared for, and both of the kids left with positive attitudes. I was very pleased with the ethics of your care decisions. At our former dentist, I always felt taken advantage of, but that certainly wasn't the sense yesterday.

Review for Paul Szmanda

I have been working with the Team at Szmanda Dental for the past 2 years after losing my two front teeth. As a young female in a professional career; this was a very difficult experience to endure. The Team at Szmanda Dental made this entire experience much more tolerable and manageable. They were supportive emotionally, and were quick to fix any broken partials that came along the way...in which I broke several. After 2 years of trips back and forth, changing my eating habits, and my entire lifestyle due to missing my 2 front teeth; I was with my new Crowns after the implants were inserted and healed. The end of this journey felt like it would never come. With the support, humor, and professionalism of Dr. Paul Szmanda and his staff, this journey would have been an entirely different experience. Therefore I would like to personally thank Dr. Paul Szmanda for all his great work, his ability to fix any of my "situations" and his kind bedside manner. I would also like to thank Shelly E. and Patti B., Receptionist and Office Manager (respectively), for their humor, support, and ability to work with my work schedule and get me in to see Dr. Szmanda when I was in a pinch. Their service allowed me to never go one single day without two front teeth. They are the true "glue" of the Operation. I would also like to thank Ashley L, Dental Assistant, for her ability to help me make light of all the situations I endured during this process. I can't say enough great things about the Staff at Szmanda Dental Center in Rib Mountain. Thanks to all of you for everything you have done. You haven't seen the last of me yet...I think at this point I have my own parking space:-)

I went to Szmanda Dental for a second opinion. Dr. Simons took his time going over every tooth and the estimate for the work to be done was \$1,000 less than what the previous dentist I saw had estimated (and I was not charged for this initial visit). I have had my dental work started and have been very happy so far. Dr. Simons takes his time and makes sure his work is done to perfection.

I have been contemplating trying a new dentist for years, and finally did this week. Everything was surprisingly easy! I was able to get in within 2 weeks, had a great dental hygiene apppointment, and was given a practical plan about how to proceed with my mouth (that doesn't require a second mortgage). The clinic is beautiful and the staff friendly and helpful. Thank you Szmanda Dental for making this transition so easy!

I'm Very happy with my choice of Szmanda Dental Service. The staff is always personable; While being completely professional. I attribute my current "excellent dental health" to the advice and work of DR. Jim and Colette "my" hygienist. Procedures are always done with an eye toward comfort. Whatever they are doing is working. I go years trouble free; between fillings or other procedures. With bi-annual cleanings; examinations and x-rays. Highly Recommended office.

Mouth is still sore today, not the tooth so much but the skin area, and the right side of my cheek is visibly sagging. A bit concerned at the moment as this hasn't happened to me before. Assuming that is ok and it just takes a little time, the staff did fine. I have no issues on that side at all. If someone wants to respond to me on my concern that would be appreciated.

I just love the Szmanda Dental Center in Marathon. The receptionist, Krissy is always so sweet and makes me feel right at home. Wendy, my favorite hygienist does such a wonderful job, I always make sure to request her for every dental cleaning. Sonia always makes sure to say hello during my visit even if I wasn't scheduled to see her, and Dr. Keith is excellent at what he does and is usually good for a laugh or two. Such a wonderful group of people! Thanks for your great service!

Review for James Sobolewski

This was the most painful dental experience I have ever had. I don't understand why the doctor kept working on my tooth when I could barely stand it. I was to the point where I had my hands up in a motion to stop him, but stopped because I was afraid to interfere and possibly make things worse. He did eventually administer more numbing medicine, but now I know why people have a fear of the dentist. I never understood it before. I can't stop thinking about it. Secondary to this, I really don't want to have a root canal and told the doctor why, but he strongly disagreed with me and started doing one anyway. Now I don't know what to do. I don't want to continue the treatment, but have to do something. Another problem for me for the remainder of this school year is that I have an extremely difficult time taking time off work for appointments, and your office is booked for any appointments after 3:30. I am now scheduled a month out for a procedure that, according to the doctor, should be taking place within 7-10 days.

Review for Paul Szmanda

Service was satisfactory for my first visit. I would have liked to hear more about problems related to my teeth. While measuring the pockets there were many that

were 4 to 5 mm and one that was 10 mm. I was told the 10 mm is one of concern and was referred to a periodontist. The pockets that were 4 to 5 mm deep really were not discussed although the periodontist will check all of them. Is 4 to 5 mm normal for someone my age. How are they created? What can I do to minimize them or maybe restore them.

For more than three decades, my report has been consistent; although each year more amazing as the odds of this type of thing diminish. I am always impressed, pleased and have no concerns as to quality of care and forward vision for prevention. Never a pain never a concern, never thought in my life that I would be able to say that.

Everyone at the center was very welcoming and professional. Both my son and I came in as new clients and they treated us very well. My son was in this morning and the staff made him feel at ease, even with having a tooth pulled for the first time. They continually spoke with him through out the procedure and waited with him until he felt okay to go home.

**Review for Dawn Homan**

I arrived prior to my appointed time. The wait time was unacceptable--nearly 30 minutes for just a cleaning & brief exam. My hygienist was great. However, I was left waiting in the chair again after my cleaning--waiting for a doctor to come in to perform the brief exam. After 20 minutes and still no dentist, I got out of the chair and left without an exam. My time is important, too. It is unlikely I will return for future service.

When I went to Dr. Keith Simons for a root canal, I was very apprehensive and didn't know what to expect. Well, he took the fear away. Dr. Keith and Sonia put me at ease and were very gentle with me. I love going to the office because I am first greeted with the beautiful smile of Krissy, the office administrator, who can brighten anyone's day! But whether going for a cleaning with Wendy or a root canal with Dr. Keith and Sonia...my experience at the dentist is always pleasant. If you are searching for a dentist you can trust and for an office where you can feel like family, I suggest the Marathon Szmanda Dental Center for a great dental experience!

My daughter's orthodontist asked that we have 4 of her teeth pulled in preparation for braces...not something any of us were looking forward to. Finally, the day came for her appointment and her name was called. Dr. Szmanda came out and touched base with me (as he always does) before the procedure. When he knew that we all were on the same page he returned to her to do the extractions. The next time I saw her she approached me in the waiting area with a big smile on her face and chatted (with a mouth full of gauze) all the way home. She'd had a blast with Dr Szmanda and his team! Szmanda Dental has been taking care of my family since our children were small. It's always been a great experience and I recommend them often.

Friendly and welcoming reception for an early morning cleaning visit. Service was prompt and thorough. Dr and Assistant worked well together. After being away for a number of years with a Dentist in Eau Claire, due to work, I feel extremely comfortable in returning to the Szmanda practice. Was glad to be able to set up the next 6 month cleaning appointment prior to leaving. Thanks for welcoming me back to the Rib Mountain-Wausau Szmanda Dental Center.

I absolutely hate going to the dentist- I actually put my exam off for 2 years due to a horrible previous experience I had at another dentists office. I was referred to Szmanda Dental by a friend and will ALWAYS recommend them to my family and friends!! I had an AMAZING experience, they truly care about the patient and not the money their making! They are friendly and fast and just excellent!! Cannot wait to go back for my 6 mo. Cleaning!!!

Szmanda Dental Center

★☆☆☆☆ by WrayM on 2014-04-14

I have been a patient for quite a number of years although my records indicate otherwise. I was once a patient of Jim's before Dr. Glaser took over that sight. I chose

not to go to Glaser and another series of events caused me to stop going to anyone. Recently now when I finally decided to go back it was due to my needing a cleaning and one of my crowns had come off of it's post. I had also been having some pain in my lower bottom back molar. A full mouth of exrays were taken. My teeth were then cleaned and Jim replaced my crown which I had kept. He told me when he put it back on that if it came off again, i would require a root canal. Other than the crown falling off, the tooth did not bother me. What bothered me about this whole thing is my painful tooth was ignored while Jim said he didn't see any problem with it although he would check the xrays and call me back the next day as he had other patients and couldn't finish up with me at that time. I didn't receive a follow up call from Jim as I had expected and the pain was not getting any better. In the meantime my crown that Jim had replaced had come off once again. I was not about to go back to Jim for a root canal. I decided to chance with another dentist who took two pictures of my rear molar that was causing the pain, and another of the crown that had fallen off a second time and determined the tooth was not a problem at all however if it fell off again he would likely repllce it with a different type. At the same time he informed me that the tooth that had been bothering me and causing the pain had a good amount of decay and without any doubt would require a root canal. Following that first appointment where he did all this diagnosing, it cost me just over \$100. I have no insurance either. Conversely, it cost me \$398 for the efforts that got me nothing with your office. I feel cheated out of the money as it turned out to be an expensive tooth cleaning for me. Overall, the other dentist has since begun the first phase of a root canal on my painful area and the pain has been reduced considerably. It will all go away within a few more days and it is going to be completed in May. I feel bad this all happened as I have always liked Dr. Jim and Linda but I think I paid a lot of money for nothing and should get somthing back for all my trouble.

I had a molar that had a piece of the tooth chipped off. At first I thought I might need a crown, or at the very least a new filling. I was pleased to find out there was another option to use an epoxy to fill in the chipped area. It was so great being cared for by a dentist that knew the best and least invasive way to fix my tooth. No needles or drilling! From the time I entered Szmanda Dental Center until the time I left took exactly 19 minutes! No pain and no eating restrictions. They are the best!

Review for SZMANDA DENTAL CENTER

I had a very pleasant experience with you all at Szmanda Dental. I called and you were able to schedule me the next day which worked out great, was in a lot of pain. Then you scheduled my root canal for the week later while my infection in my tooth settled down. Can't remember my dentist right at this moment but Dr. F (we will call him) was very nice and explained everything that was going to be done and I appreciated that. That way I knew what to expect and no surprises. I will be moving my 3 girls and myself to your business as I won't get that great service where I am at now. Thanks again. I did have a lil discomfort as the doctor explained I would but was all tolerable and not too bad. My brother and his family are possibly thinking of moving over to your business also. :)

Szmanda Dental in Marathon City is a warm, welcoming and friendly office. From the moment you walk in and are greeted with a big, beautiful smile from Krissy you feel right at home. Wendy is such a gentle, sweet soul. Many people dread going to the dentist but after having your teeth cleaned by Wendy you surely won't dread going to the dentist again. She puts you right at ease and for me, it is a very relaxing experience. I would recommend Szmanda Dental to anyone. Sonia, Keith, Wendy and Krissy make a great team. Thanks for making going to the dentist a pleasant experience!!

the experience was typical. Nothing over the top. However, I do feel they need to get some of the beanbag type headrests. I spoke with Paul about this at my last visit in April. I brought mine along this time and it seemed to work. I understand you have pillow or blankets but the bean bag type would conform to any position. Just a thought and should be a fairly inexpensive investment to at least try out.

My first visit to the office of Dr. Szmanda left me extremely happy, comfortable, and looking forward to future appointments. The staff, including those at the front desk, the dental technician, and the doctor himself, were all very thorough with me in regard to answering questions that I had, explaining any work that needed to be done, and making sure that I was comfortable with everything. The facility itself was extremely clean and in top notch condition. I have no complaints. Thank you again!

Review for SZMANDA DENTAL

Admittedly due to my own neglect, I've had to have a lot of work done on my teeth. Over the years, due to a number of different circumstances, the work was done by a number of different dentists. Because of that experince, I want to put in a word for Dr's Paul Zsmanda and Keith Simons. Dr. Paul has rescued me from couple of dicy situations now, and I find him to be an accurate judge of a situation. His experience particularly, and personality as well, have helped guide both my wife and myself through some tough choices. I find him to be personable, trustworthy, accurate, efficient, and sure. Dr Keith I find to be one of the best young DDS's I have ever run into. He is carefull, and imo a craftsman. He seems to be trying to accomplish the best that is possible to be done with everything he's done for me. He may not be so fast, but imo really good. I'd like to put in a word for the staff. The the receptionists, the tooth cleaners, the chair side assistants. Everyone I've run into so far has been personable in their attitude, seem to know what they're doing, and seem to be the type of people who are pro active in their work, not the type who wait until something needs to be done before getting at it. In other words, the type of people I'd like to have working for me.

Review for SZMANDA DENTAL CENTER

This was my first visit to Szmanda, Wittenberg. I had a cleaning and my 3 1/2 year old daughter had her first appointment. I was a bit nervous about how it would all go! Our Hygienist, Becca was great with my daughter! She gave her a ride in the chair and explained everything she was going to do in terms my daughter could understand. Then when it was my turn, Kristi, the receptionist got my daughter toys and coloring books to keep her busy. It was a great experience - Thanks Szmanda, Wittenberg!

The waiting time was short. The receptionist and staff were all very friendly and seemed genuinely interested in me and my well being. The only thing that frustrated me was the referral to the oral surgeon, because I wasn't able to be seen by him quickly or have my pain alleviated.

New crown has stayed in 24hrs now, good to go. Looking forward to getting used to chewing with both sides of my mouth in the coming weeks. Atmosphere was relaxing and fun even for having broken tooth fixed and all its related steps.

This was my first experience with Szmanda and they were great. The only complaint I have is the fact that it was forgotten to put a lead vest on me during the first x-ray. Frankly, I forgot too and got zapped with a nice little added boost of radiation. Other than that, however, they were great, listened, and were thorough.

I go to Florida in the winter for four months and as soon as I return always see Dr. Felchner. He knows my mouth inside and out and has been my dentist for at least ten years. He has been advising me on dental implants to be done this summer. Guess what?? I never got to see Dr. Felchner!! Some other dentist was ushered in after the cleaning to check my mouth. When I inquired about my appointment with Dr. Felchner I was told he was with another patient. I did not like that! Very underhanded!
